We reveal the 9 Secrets to Success. Exactly what to do and how to do it!

The IRIS HOTEL GROUP has been excited by the innovative training approach André Moreitz & Steve Wisbey have shared with staff across our Hotels through the Cheeky Monkey Success Training Program.

Staff morale and motivation has improved significantly and importantly our turnover has jumped. I have found André Moreitz & Steve Wisbey's program to be unique, unorthodox and inspired...in fact, we have been so impressed with the results, especially revenue growth of 20%, that we commissioned them to tailor more rounds of seminars and a staff motivation package. André and Steve's resourcefulness, research and the quality feedback they provide to IRIS, as new promotional and operational systems are being implemented, is another reason why we consider Cheeky Monkey Success Training an asset as we move forward."
